**DETAILED ACTION**

1. Claims 1-29 are presented for examination. Claims 1-19 are elected for examination.

***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 1/31/2005 is considered by the examiner.

***Drawings***

3. The drawings are objected to because there are two figures labeled as figure 4. Correction is needed in distinguishing the two figure (i.e., label the figures as figure 4A and figure 4B). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Election/Restrictions***

4. Applicant's election without traverse of claims 1-19 in the reply filed on 12/3/2004 is acknowledged.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

**EXAMINER'S AMENDMENT**

6. This application is in condition for allowance except for the presence of claims 20 to 29 non-elected without traverse.

7. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ketan Vakil on March 14, 2005.

8. The application has been amended as follows:

Cancel Claims 20-29.

***Allowable Subject Matter***

9. Claims 1-19 are allowed.

10. The following is an examiner's statement of reasons for allowance: None of the cited prior art of record fairly suggests or teaches all of the limitations of the claimed invention, especially the steps of determining and rounding the number of route advertisement aggregation points at each level of the hierarchy up to a power of a base number of the address plan; determining and rounding each of the number of addresses for each of the network security policy areas up to a power of the base number to produce a plurality of rounded addresses; determining and rounding the size of the plurality of address ranges up to a power of the base number to produce the size of a repeating policy pattern and assigning an instance of the repeating policy pattern to each of the route advertisement aggregation points.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
